MEMORANDUM

TO Libby Site Team

FROM Jim Christiansen, RPM

SUBJECT Libby RI SAP Review

Please review the attached SAP and submit any comments directly to the CDM project manager Jeff Montera. Jeff's email is monterajg@cdm.com and his phone is 720-264-1116. Copy me on any comments. I will be out on travel through April 17, then going on vacation on April 19-26. I will be in frequent communication with Jeff to resolve all comments and finalize the docs. I will also be checking voice mail.

Please submit comments NLT Monday, April 15. Forgive the short turnaround, but we need to get the document finalized quickly - we need all the time we can get to screen over 3000 properties this year and still have some work to do on some method details. My hope is that the pre-read I gave everyone on the rationale will make this review easier - I got nearly all very positive comments on it.

Many folks are reviewing the SAP including Volpe, USGS, PES, and others.
